Flask Testing on Postman

The image shows the Postman application interface. At the top, the URL bar displays `http://127.0.0.1:5000/todos`. Below the URL bar, the request method is set to **POST**. The request body is in **JSON** format, containing the following data:

```
{
  "title": "Go for a walk"
}
```

The response status is **200 OK**, with a response time of 10 ms and a size of 230 B. The response body is in **JSON** format, containing the following data:

```
{
  "completed": false,
  "id": 1,
  "title": "Go for a walk"
}
```

The interface includes tabs for Docs, Params, Authorization, Headers, Body, Scripts, Tests, and Settings. The Body tab is currently selected. There are also buttons for Save, Share, Send, Schema, and Beautify.
